Dear LifeVantage Team,

I am pleased to share exciting news with you about Montel Williams, the noted celebrity talk show host and LifeVantage distributor whom many of you listened to and met at the Sea Change Ribbon-Cutting Event in San Diego. Montel was interviewed for and featured in the September/October issue of AARP Magazine, which has a circulation of 34.5 million and is considered to be the largest circulation magazine in the world. AARP is widely regarded as the gold standard in print media and for Montel to be interviewed by this publication is an honor and an achievement for both Montel and LifeVantage.

As you know, Montel maintains a very high profile in the media as an Emmy Award-winning talk show host; has been featured on the CBS television show, *The Doctors*; appeared on E! Entertainment and more. Montel also has a daily radio talk show on Air America, *Montel Across America*, and has a huge fan base.

The AARP magazine article refers to Montel's use of an "antioxidant supplement," amid his personal health challenges, and he explains in the attached letter that he was referring to Protandim. The letter and a copy of the article are attached.

Because we knew that many of you would be interested in reading the interview, LifeVantage has ordered a limited number of copies of the magazine which are available for your purchase. Please contact customer service at 866.460.7241 to buy a copy.

This is an exciting time for all of our distributors and I want to thank everyone, again, for all of their hard work and dedication to LifeVantage.

Sincerely,

David W. Brown
